

Image Editor Guide

Crop, retouch, draw and add text

Open a photo

1 Tap any image in Files

JPG, PNG and HEIC files open straight in the Image Editor. Try the sample photo we added for you.

2 Pick a tab at the bottom

Basic, Adjust, Filter, Draw and Text. Each one is a different set of tools.

3 Tap ✓ to save

Undo and redo are always at the top, and ... has Save a Copy, Resize, Compress and more.

Elite PDF

Basic

Fix the frame

Straighten a tilted photo or change its shape with one tap.

↶ Rotate Left

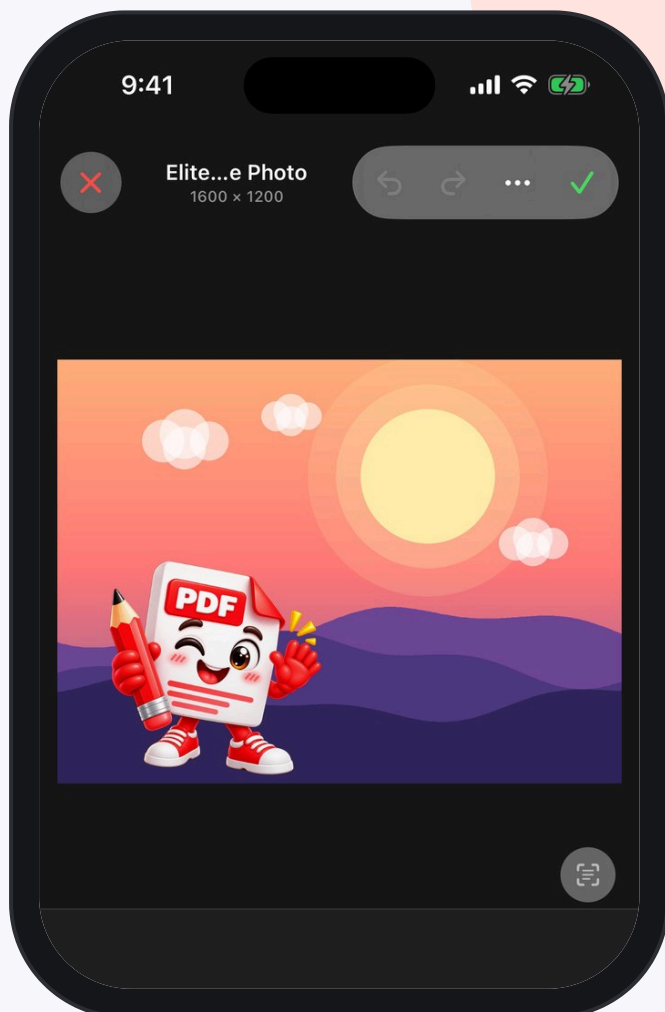

↷ Rotate Right

⇌ Flip Horizontal

↕ Flip Vertical

✂ Crop

↶ Reset

Crop opens a full-screen cropper. Drag the corners, or pick a ratio like 1:1 or 4:3.

Reset brings back the original any time, so experiment freely.

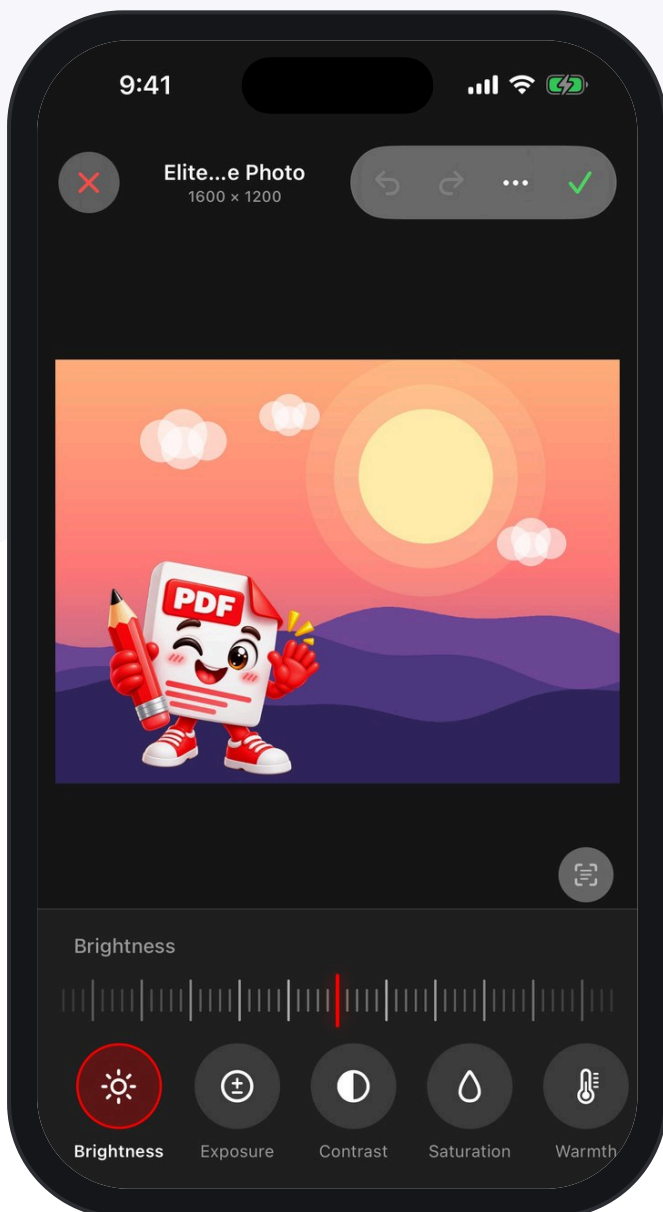

Elite PDF

Adjust

Fine-tune the light

Pick a control, then slide the ruler left or right. The red mark in the middle means untouched.

 **Brightness**

± Exposure

 **Contrast**

 **Saturation**

 **Warmth**

 **Highlights**

 **Shadows**

 **Sharpen**

 **Vignette**

Your changes show live on the photo as you slide.

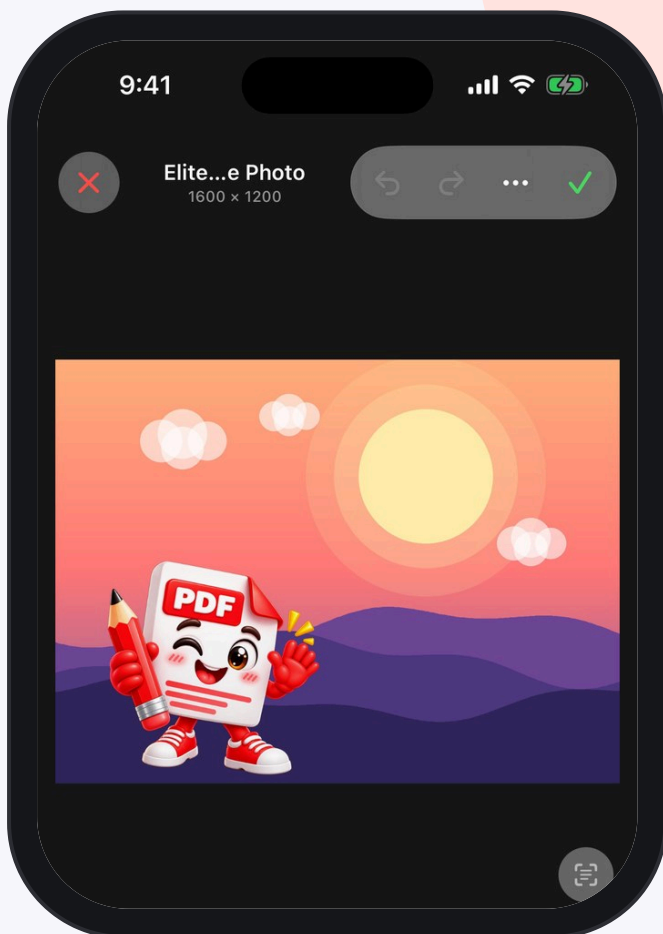

Elite PDF

Filter

One tap, new mood

Swipe through thirteen looks and tap one to apply it. Tap **Original** to go back.

Combine a filter with the Adjust tab for a look that is all yours.

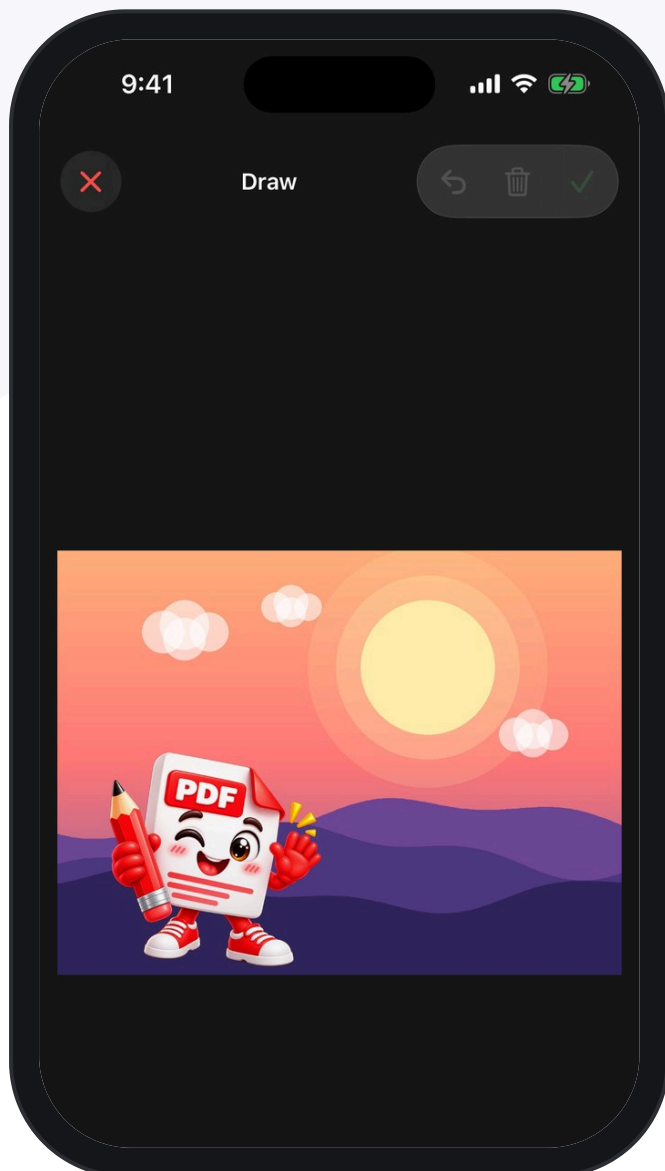

Elite PDF

Draw

Sketch right on the photo

Pick a pen, highlighter or eraser from the bar at the bottom, choose a color, and draw with your finger or Apple Pencil.

Use the **highlighter** for soft strokes and the **ruler** for straight lines.

Made a mistake? Tap **undo**, or the bin to clear all drawing.

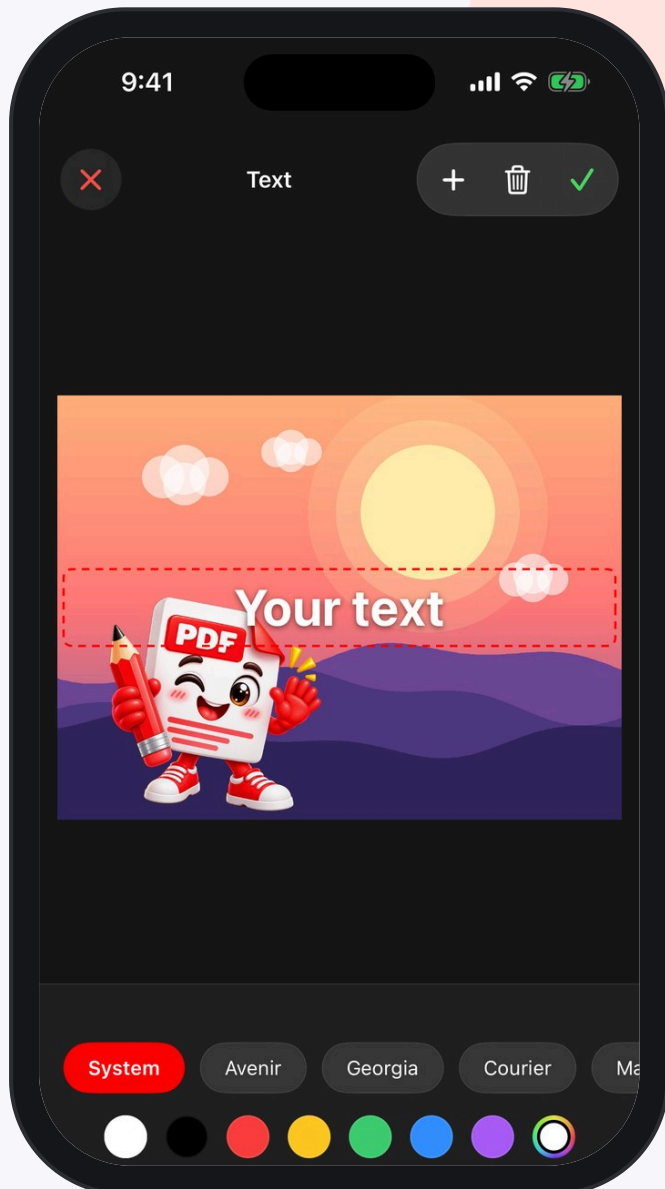

Elite PDF

Text

Add captions and labels

Tap **Add Text**, type your words, then drag the box to move it. Use it for captions, labels or a watermark.

abc

Choose a **font**, a **color** and the **size** from the panel.

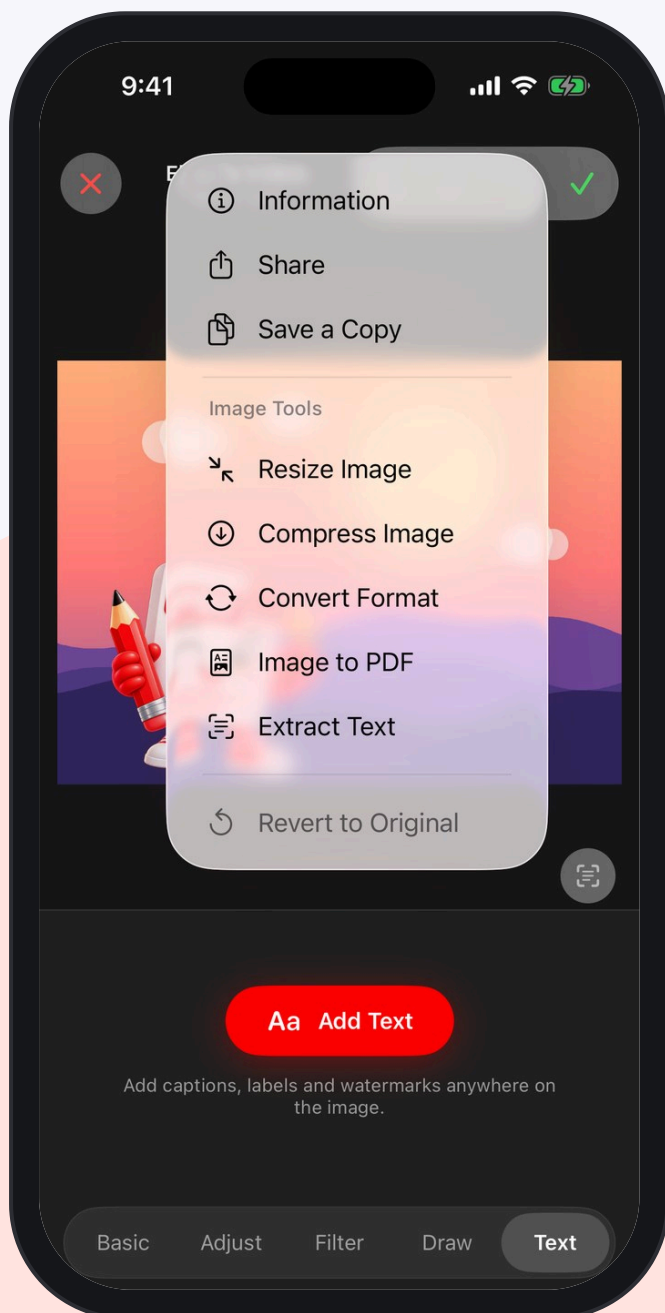

Tap **+** to add more text boxes, or the bin to delete the selected one.
